•This gift certificate is usable at all member stores affiliated with credit card companies throughout the country through a credit card selected by a user.  
•In order to use this gift certificate, a gift certificate identification number of 16 digits should be registered for initiation (the limit of the gift certificate is configured in a credit card as much as an amount of money of the gift certificate).  
•When the initiation registration is completed, one payment using the credit card uses the amount of money of the gift certificate input into the credit card.  
•Method and procedure for initiation registration  
(Matters necessary for registration: a credit card number, a gift certificate authentication number)  
①ARS (☎1588-3030)  
②Connect with the Internet (www.cccg.co.kr)  
③Visit or call a credit card issuing bank or credit card company  
•For more information, please refer to use guidance and contact Credit Card Gift Certificate Co., Ltd. (Tel.1588-3030).

(57) Abstract: Disclosed are a system and method for operating a credit card gift certificate based on credit card transactions. According to the method for operating the credit card gift certificate, a credit card gift certificate server adds the limit of the credit card gift certificate corresponding to an amount of money printed on the credit card gift certificate to the transaction limit of a credit card of a credit card user, and the credit card user uses the amount of money of the gift certificate through the credit card transactions within the additionally configured limit of the credit card transaction. An amount obtained by subtracting the limit of the gift certificate from an amount paid by the credit card is determined as a payment amount to be paid by the user on a credit card bill that is sent to the user.
